

**At the Richmond Senior Center, we follow CDC and SFPD recommendations when developing our prevention strategies which currently include:**

1. We continue to **require current COVID-19 vaccinations for all Richmond Senior Center staff.**
2. RSC staff test weekly for COVID-19
3. We maintain deep cleaning practices including disinfection of high-touch surfaces and common spaces. Hand sanitizer is available at the entrance and throughout the center.
4. We maintain air quality by running multiple HEPA air filters, keeping windows open and checking our centrally located carbon dioxide monitor.
5. We ask all participants and staff to refrain from attending our center if they have been potentially exposed to COVID-19 or have any signs of illness associated with COVID-19 and/or the flu. In the event of exposure or illness, please wait five days from exposure and do a COVID test prior to returning to our center.
6. **Masks are available and provided upon request.** Anyone exhibiting flu-like symptoms will be asked to mask and encouraged to go home and test.
